3. an admission that the information cited herein is, or is considered to be, material to patentability as defined in 37 CFR 1.56(b).

Further enclosed are copies of brief partial translations, as prepared by the Japanese associate of Applicant's attorney, of the five listed documents. Applicant's attorney does not have, and is not aware of, any further English translations of the five listed documents.

Based on what is stated in the partial translations and on what is illustrated in the figures of the five listed documents, none of them appears more material to the present invention than the prior art already of record.
